DESCRIPTION

On "Are Healthy" The Disconnects take the dirty and dangerous 1970's sounds of bands like The Dead Boys, The Heartbreakers, The Ramones, and The Stooges and prove that Rock and Roll is something you still need. Thanks to them, it's not going away anytime soon. Forget the mainstream music press saying this band or that band are "here to save Rock and Roll". "Are Healthy" is proof that since its inception Rock and Roll was, is, and always will be alive and well.
