## DESCRIPTION

The fact that we were able to fit all the aggression of "Good Grief" onto a single cassette tape boggles the mind over here at Baldy HQ. Before you even know what hit you auto reverse kicks in and they keep coming at you like a rabies infected hardcore Yeti. I don't even know where to begin with this one it's so brutal. Pissed off at things like society and dogmatic nonsense to the point of losing it? Throw on "Good Grief" and work it out along with Through Thorn and Brier. Modern day therapists are what they are.

## TRACK LISTING

Side A The Sorry Flesh, Trample, Dirtswimmers  
Side B Old Dogs New Wounds
